# Emergency Saving Withdrawal

We've put together some information about your option to withdraw a portion of your retirement savings.

## Pre-retirement withdrawals

Preserve your funds and retire with confidence.

Legislation permits you to make a partial withdrawal from your pension fund while you are still employed, according to certain rules and limitations. We encourage you to peruse the information below to get an understanding of how this works, and the impacts of making use of this option.

## Review My Savings Pot Amount

Please review the amount you have available in your Savings Pot, before proceeding with the Savings Pot withdrawal process.

Here is a summary of your savings pot amounts

The values of each of your "Pots" are listed below. For a description of each of the Pots go [here](#).

<b>Total Member Share:</b>	<b>R 118 911.34</b>

\* Maximum amount available for Savings Withdrawal (subject to conditions)

Taking your savings in cash now is tempting, but this decision could affect you now and later.

**Please note:**

- You may have to pay tax now on the cash you take.
- The money you have saved is meant to be used for your income in retirement. If you use it now, it could affect your standard of living in retirement.
